### 106TH CONGRESS 1ST SESSION

# S. 1992

To provide States with loans to enable State entities or local governments within the States to make interest payments on qualified school construction bonds issued by the State entities or local governments, and for other purposes.

### IN THE SENATE OF THE UNITED STATES

November 19, 1999

Ms. Snowe introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

## A BILL

- To provide States with loans to enable State entities or local governments within the States to make interest payments on qualified school construction bonds issued by the State entities or local governments, and for other purposes.
  - 1 Be it enacted by the Senate and House of Representa-
  - 2 tives of the United States of America in Congress assembled,
  - 3 SECTION 1. SHORT TITLE.
  - 4 This Act may be cited as the "Building, Renovating,
  - 5 Improving, and Constructing Kids' Schools Act".
  - 6 SEC. 2. FINDINGS.
  - 7 Congress make the following findings:

- (1) According to a 1999 issue brief prepared by the National Center for Education Statistics, the av-erage public school in America is 42 years old, and school buildings begin rapid deterioration after 40 years. In addition, 29 percent of all public schools are in the oldest condition, meaning that the schools were built before 1970 and have either never been renovated or were renovated prior to 1980.
  - (2) According to reports issued by the General Accounting Office (GAO) in 1995 and 1996, it would cost \$112,000,000,000 to bring the Nation's schools into good overall condition, and one-third of all public schools need extensive repair or replacement.
  - (3) Many schools do not have the appropriate infrastructure to support computers and other technologies that are necessary to prepare students for the jobs of the 21st century.
  - (4) Without impeding on local control, the Federal Government appropriately can assist State and local governments in addressing school construction, renovation, and repair needs by providing low-interest loans for purposes of paying interest on related bonds.
